System Setup Guide

1. Introduction

Before starting the exercise work in your SAP Learning System Access training environment, you will need to prepare yourself based on the SAP Learning System Access General User Guide and this course relevant Setup Guide. This document provides all additional training system setup information that you need to successfully use your SAP Learning System Access training environment for the booked course.

2. Last Update of This Document (“Change History”)

Last update of this SSG: 29.01.2024.

3. Global Training System Support

Please check the Help section on the SAP Learning System Access portal for detailed information.

4. System Landscape Information

CLD200 System Landscape

As a student with an SAP Learning Hub license you can order access to a CLD200 BTP system under <https://practice.learning.sap.com/#/all-systems>.

5. Logon Information to Access SAP Training Systems

Access your personal CLD200 BTP System

As a student with an SAP Learning Hub license you can order access to a CLD200 BTP system. Enter the SAP Learning Hub Practice menu <https://practice.learning.sap.com/#/all-systems> and search for **CLD200**. On the result tile choose **Enroll** and confirm the following screen. The access will take a short while. Choose **Access** to access your personal CLD200 BTP System.

6. Additional System Setup Tasks

7. Known System Issues

Known exercise issues are documented in the `TROUBLESHOOTING.md` file, that you have in your CAP applications root folder. You have cloned this from the GitHub starter template in the first exercise. You can also access it via the following link. Please always check this first before opening a ticket.

<https://github.com/SAP-samples/btp-side-by-side-extension-learning-journey/blob/main/TROUBLESHOOTING.md>

8. Additional Hints And Tips For Exercises of This Course

IMPORTANT: Please always complete the exercise you are working on before you suspend the system to avoid potential system inconsistencies and failure.

NOTE: Using your personal CLD200 BTP System via SAP Learning Hub you can do all Exercises until **Unit 4: External Services - Adding an External Service**.

Templates and Solutions

You can find all templates and solutions of the exercises inside of our public available github repository.

Figure 1: CLD200 Solutions and Templates for the Exercises

You can access it here: <https://github.com/SAP-samples/extension-suite-learning-journey>

Every exercise has it's own branch with the solution inside. You can view / change the branch by clicking main.

You cannot make any changes in this repository. You can fork it to your personal account when you need to change something.

The template branch for the exercises is: *main*.

The template branch for the case study exercise is: *case_study*.
